# English Digest

Dear Readers, our Best Wishes for a Happy and Healthy 1994! The content of this first issue of **MLCV Notizie** has many informations: **PELLE** is an editorial that gives more informations about "where to go" in this area if you want to buy Leather stuff, even if the market is not so full of articles as the north european gay areas. **TATTOO** helps you to reach more informations for tattooing in Veneto region: Health care and good professionals are the most important things to know, and than the decisions and the drawing you will decide to carry fall life long over your Body. **ROMA** is a report with the latest informations of the more interesting macho Bars and places in our Capital: a gay scene still growing, with a lot of nice guys but a low-developed leather mentality: the streight-Macho look is here still trendy but also helps to be invisible for visitors. **NEWS.** reports news of the local scene, but if you are planning to visit Veneto region, you just call us (0039) 444 321290 for the latest news.. **CLUB ACTIVITY:** we have or AGM No.1-1994 middle of January: with 10 new Probationary members (a women included) :this will be a very interesting moment for the future developing of our Club, and we wish to decide also to ask to be considered as Probationary members at the next ECMC AGM in October: the commercial developing of the gay scene in Padova and the members decision may decide for this new important decision.  
Our Best Leather Regards!
