

MR. LEATHER EUROPE 2012

THANKS TO...

Dear Friends,

I let a few days go by "Mister Leather Europe" Hamburg to settle the chaos of emotions that adventure has aroused in me. Today, with equanimity, I can say that it was a unique experience, and I think unrepeatabe, especially on an emotional level.

I never thought to try so many different feelings at the same time: proudness to represent my country, friendship and brotherhood with the other competitors, affection and encouragement from friends of the Italian Club who were present, the desire and the hope of be up to, and why not, the disappointment about the second place.

I did everything with the utmost conviction and, for a moment, on that stage, I actually thought that I could do it, and that I would finally break the chain in which Italy is always second or third in this event.

Here I want to thank Paul, Fabio, David, Dino, Simon, Torsten, Thomas and Caesar, with their spontaneous collaboration and with their enthusiasm, contributed to the excellent results.

Right now I am proud of "our" second place!

Thank Spike Hamburg for the organizational effort and hospitality; Peter and Jeff took care of our competitors; the Sisters of Perpetual Indulgence, Daphne and Katherina, who with their irony have been able to dissolve the emotions of the most intense moments.

And thanks to Andrea Pressi and Massimo Fusillo on behalf of all members of Leather Friends Italy and Leather Club Roma: once again, also in Hamburg, our community has proven (and actually is) united, supportive and close-knit, receiving appreciation from most other European delegations.

Thanks so much.

I am happy to be Mr. Leather Italy 2012: this experience enriches me day by day, allows me to meet new and interesting friends and visit many different places, wearing the sash of Mister and representing my community.

..... and the adventure does not end here!

Fabio
